EFIK Series

Dimmable Smart WiFi Controller

OVERVIEW

Transform Any Patio Heater into a Smart Heating System

Upgrade your outdoor heating experience with the Eurofase Heating Dimmable Smart WiFi Controller. Easily turn your patio heater on or off, adjust heat levels, and set timers directly from your iPhone or Android device - or use voice control with Alexa and Google Home.

Perfect for both new installations and retrofit applications, the controller adds intelligent control, enhanced comfort, and greater energy efficiency to virtually any compatible patio heater.

For added peace of mind, the controller features a built-in 3-hour automatic safety shut-off, helping prevent heaters from being left on unintentionally while providing reliable, worry-free operation.
